Ready To Start offer

Prepare your migration to 3DEXPERIENCE® in the cloud

cenit

Keonys
A CENIT COMPANY

The 3DEXPERIENCE® cloud for CATIA V5 users

Ready To Start is a tailor-made offer packaged by KEONYS to meet the needs of small and medium-sized companies in order to deploy the 3DEXPERIENCE® platform quickly and securely.

If you want to manage your documents, structure your data and projects, visualize your parts and assemblies remotely while working in real time with your employees, 3DEXPERIENCE® is the ideal solution.

The solution proposed by KEONYS guarantees you an immediate start, based on a pre-configured and proven base allowing a quick deployment in a few days.

The **Ready To Start** offer is about :

Quick to i**mplement and use.**

A **technical scope** defined according to your business processes.

With all the advantages of **cloud hosting**: data security, automatic updates, low IT infrastructure costs, **24/7 access and support.**

Launch	Alignment	Preparation of the platform & Business Adaptation	User's deployment
Launch meeting	Alignment workshop	Workshops preparation Platform launch Thematic workshops (Data structure, CAD...) Adoption workshop	CAD trainings

The 4 key-steps of the Ready To Start offer

1. Alignment

The alignment stage is a day in which :

- A **proposal of standards** is presented.

- The **suitability of the solution** for your business processes is checked.

- A discussion on the **adaptations to be made** is held.

2. Workshops preparation

The preparation of the workshops is a step allowing to **build the solution** and all the deliverables (methodological documentation…) according to what has been discussed during the alignment.

3. Themed workshops

The workshops are carried out as follows:

- We start with the **preparation of the 3DEXPERIENCE®** platform and its configuration.

- Subsequently, **themed workshops** (business specific) are held with key users in the design office to implement the proposed solutions.

- We end with an **adoption workshop** during which a scenario is played out from start to finish to check that the whole process is operational and integrated.

## 4. Plateform & CATIA V5 or CATIA 3DEXPERIENCE® trainings

At this last stage, depending on the users' needs, different types of training are available:

- Introductory training on the 3DEXPERIENCE® platform and Power By CATIA V5

- An introduction to the 3DEXPERIENCE® platform and CATIA 3DEXPERIENCE® training

- Other specific CAD training courses are available as required.

You will then have all the keys to use your new tools.

What you should know about the Ready To Start offer:

- **4 structured steps** to ensure project success

- Deployment in **less than a month**

- A first step from CAD to PLM

- A **standardised approach** based on based on good practice

- From CATIA V5 or in transition to CATIA 3DEXPERIENCE®
